PERSONAL PROFILE

Software Engineer with experience at NTT DATA in projects with Java (Spring Boot), Python, and AI integration. With a solid foundation in full-stack development and automation, focused on designing scalable technical solutions and providing value from the first sprint.

WORK EXPERIENCE

Software Engineer (Internship)

NTT DATA Europe & Latam | Malaga, Spain | April 2026 - June 2026

- **AI Automation:** Hybrid script in Python and Generative AI integration to process YAML configurations (EPO Project).
- **Backend Development:** 2 prototypes in Java (Spring Boot) with H2 and evolution to MCP server with Spring AI.
- **SDD Methodology:** Dynamic generation of JSON schemas and PDF documents using Spec-Driven Development.
- **Technical Validation:** Live demo for the AI team and training on GenAI, Kubernetes, and Git.

ACADEMIC BACKGROUND

Bachelor's Degree in Software Engineering

University of Malaga | Malaga, Spain

- **Software Lifecycle:** Requirements engineering, architectural design, maintenance, modular/integration testing, and project management.
- **Web and Mobile Development:** Web technologies, user interfaces (UI/UX), software for mobile devices, and distributed systems.
- **Systems and Data:** Data structures, algorithms, databases, concurrency, application security, and intelligent systems.
- **Bachelor's Thesis:** Intelligent Virtual Closet; full-stack mobile app with React Native, FastAPI, MySQL, and Gemini LLM.

COURSES AND CERTIFICATIONS

Generative AI Certification (Yellow Belt for Developers)

NTT DATA Europe & Latam | 2026

Cyber Bootcamp Malaga (Advanced Module)

Google.org and University of Malaga | 2025

LANGUAGES

English (C1 Advanced Cambridge) | **Spanish** (Native)

TECHNICAL SKILLS

- **Languages and Frameworks:** Java (Spring Boot, Spring AI), Python (FastAPI), React Native, Redux Toolkit, SQL.
- **Databases:** MySQL, MongoDB, H2.
- **Tools and DevOps:** Git, GitHub, Kubernetes, Docker.
- **Methodologies and Concepts:** Agile methodologies (Scrum, Kanban), Spec-Driven Development (SDD), REST APIs, Generative AI.
